## Behind the scenes **PEdit**

In a commentary track on the *Star Wars* Blu-ray release, G Lucas stated that ships in the *Star Wars* universe can't trav straight lines while in hyperspace due to collisions with cele objects. Thus, distance is an important factor in how quickl get from point A to point B. The *Millennium Falcon*'s superinavigation computer allowed it to travel shorter distances be points and arrive faster.

Canon sources conflict on the veracity of Solo's claim of th 12 parsecs. *A New Hope: The Princess, the Scoundrel, an* inexperienced Luke Skywalker is impressed with, but which more than a boast. *Return of the Jedi: Beware the Power of* every ship is created equal and the rebels have the ship th

Star Wars Story describes Han's Kessel Run as being slightly longer than twelve parsecs, while other ships tend to take at least twenty.
